

K-LOVE is a wonderful inspiration to me and my family. If this community were to lose this station to other programming by an LPFM broadcaster it would give no place that we can get uplifting music, commentary that we enjoy with our children present. It is critical that we have the opportunity to hear Christian music/values expressed. We support K-LOVE and are grateful that in America we can choose to freely listen to a station that is based on our faith. It would be a great loss if this station were to be replaced with more of the commercial programming that is, at best questionable and frequently offensive.
